

Here in Santa Barbara, our community access channel is an incredible and valuable resource. We have a very active membership and loyal viewership. We are available in about 80% of local homes. We have 35 different programs produced as series (either weekly or bi-weekly)! Our members produce programs on politics, culture, religion, current events. We offer live call-in programs to the community Monday thru Thursday, from 7 to 9 PM.

Our daily newspaper co-produced an election forum with us. Even they see us as an important part of the local media scene and as complementary, not competitive.

If you were to survey citizens in Santa Barbara, you would find that community access is considered an irreplaceable media source, the true voice of the people.
